[Download](#)

5 days ago - September 3, 2020: Camtasia (Windows) 2020.0.8 . Fixed an issue where Camtasia could prompt for a license key when it was already authorized. . Added the ability to customize the display of the date and time when the program starts. You can also configure the setting so that the program does not ask for a license key if it was previously authorized for Camtasia. . Camtasia now uses NVIDIA GPU Direct technology. The GPU Direct feature determines how Camtasia uses system resources to determine how long it takes to render each frame.
