New Comments: Very awesome. The idea is very grand. I like you think, the way you have made the game. The graphics and gameplay are really good, and gameplay is simple, you did a really good job. Please tell me more about the next game you are going to make, and if you want to send some more game videos. Hatsune Koushi Reviewed by : Oda 2 | Published On : 2017-01-10 How many menus? How much can you customise, also how many players can you have for a multiplayer game? Can you do PvP and local multiplayer? Because thats what I want the least for a game to have! I did enjoy the game tho. The story is pretty good, and the music is good! To me, the game doesn't have many flaws. I'd love for the game to get a 2K discount price but still hope the game gets to be in the PS Plus because bff6bb2d33
